

The Challenge

- In the next 5 minutes consider
 - First with someone in a similar role as your own:
 - What makes science unique as a discipline?
 - Why is the challenge of meeting the needs of the ELL student different from meeting the needs of all students?

Group Work

- In the next 5 minutes
 - Share with your group the ideas you developed with your role-alike partner:
 - What makes science unique as a discipline?
 - Why is the challenge of meeting the needs of the ELL student different from meeting the needs of all students?

Share

- Select your recorder:
 - determine who has the fewest letters in their first name.
- Select your spokesperson:
 - determine who has the most letters in their first name.
- Value-added contributions:
 - share one idea that has not yet been reported by another group.

Value-Added Discussion

- What makes science unique as a discipline?
- Why is the challenge of meeting the needs of the ELL student different from meeting the needs of all students?
